### NIGHT CLASSES IN MINING

A meeting will be held in the general office of the West Canadian Collieries Limited, at Blairmore, on Friday evening, October 2nd, 1950, at 7 o'clock, for the purpose of forming a night class in mining for the coming winter.

As second class mining will be taken up this year, it is necessary that all those interested in this work, should attend this meeting so that organization can be effected and the class started at once. It will be necessary to do this if the whole course is to be gone through this winter.

This class will, of course, be run in connection with the Institute of Technology and Art and under the supervision of the local School Board, with M. H. Congdon, instructor, in charge.

### PUBLIC LIBRARY

We acknowledge six books, presented to the library this week by "a friend."

There are few assets of a town that can be of greater value to the citizens than a library, but the value depends upon the use that is made of it. Your Library Board are sparing no effort to make the library of Blairmore useful in the highest degree to the greatest number of citizens. The fee of \$1.00 gives you membership for 12 months. Library hours, Tuesdays and Saturdays from 7 to 9 p.m.

### MISSION

The word "mission" receives its origin from the Latin term "Mittere," to send. It derives its meaning from the commandment of Christ Himself, sending His apostles to preach the Gospel—"As the Holy Father hath sent me, so also I send you." As St. Mark explains: "Go ye into the whole world, and preach the Gospel to every creature," so the Catholic Church, carrying out the command of Christ to His apostles, sends the word of God to the whole world and endeavors to give all mankind an opportunity of hearing it, believing it and putting it into practice. She has her priests, who are sent, according to the command of Christ, always ready to "break the bread of life" for those who have not received it. St. Paul says: "How can they preach unless they be sent?"—hence the name missionary.

At times opportunities are given of hearing other priests, other missionaries proclaim the truths of salvation. Such a time is at hand. Rev. Father C. Carroll, of the Passionist Order of the Monastery of the Holy Cross, Cincinnati, Ohio, is beginning a series of lectures in St. Anne's Catholic church here on Sunday morning, October 8th, at 8:30 and 10:30. Each evening at 7:30, these topics of eternal interest will be dealt with in the opera house. All are invited and everyone is welcome, because the Catholic church has but one object in view—to make Christ known, loved and followed, to bring immortal souls for which Christ died, to heaven.

A great American convert of recent years, J. L. Stoddard, when asked what he found in the Catholic Church, says he "finds that language is inadequate to express it. It reminds one of the familiar metaphor of the stained glass window in a great cathedral. Seen from without by day, it seems to be an unintelligible mass of dusky glass. Viewed from within, however, it reveals a beautiful design, where sacred story glows resplendently in form and color. So it is with the Church of Rome—one must know it, one must understand it to recognize its sanctity and its charm."

The Mission, beginning Sunday next, gives another such opportunity of hearing one who is "sent to prepare the way of the Lord, and to make straight His paths."

### BOARD OF TRADE TO HOLD IMPORTANT MEETING

A general meeting of the Blairmore Board of Trade is called for tomorrow evening, Friday, October 3rd, to be held in the Cosmopolitan hotel dining room at 8 o'clock.

There is much important business to be discussed, and we understand matters will include making representation to Ottawa the need and manner of relief locally.

Every citizen should make it his duty to be present at this meeting.

### FIRST AID CLASSES

A meeting will be held in the general office of the West Canadian Collieries Limited, at Blairmore, on Sunday, October 5th, 1950, at 11 a.m., for the purpose of forming the First Aid Class for the coming winter.

All those interested in this work, are asked to be sure to attend this meeting so we can get our classes going at once and have them finished by Christmas—M. H. Congdon, instructor.

### INSTITUTE OF MANUAL TRAINING

Classes offered this year are: Manual Training, 1st year—use of tools, coping saw work and simple joining.

Manual Training, 2nd year—advanced joining and useful articles. The hours for these classes will be arranged later. Will all interested notify Rev. J. W. Smith. Classes are open to any boy who cares to come regularly. Fee \$1.00.

### MR. AND MRS. J. S. WHYTE RECEIVE PRESENTATIONS

At the close of the meeting of the Ladies' Aid of the United Church on Wednesday afternoon, a very pleasant surprise was accorded Mrs. J. S. Whyte, who is leaving with her husband in the near future to make their home in Vancouver, by a presentation of a beautiful silver bread tray, as a token of esteem in which she was held by members of the organization. Rev. J. W. Smith made the presentation and in a few well chosen words expressed the regret of all on losing such a valued member. Tea, served by the South Side Circle, and a guessing contest, won by Mrs. Roberts and Mrs. Harper, added greatly to the pleasant afternoon session.

In the evening, during a social session of the local Elk lodge a halt was called in the bridge and rummy games, and Exalted Ruler Tompkins, took occasion to honor Mr. Whyte in like manner, and on behalf of the lodge presented Mr. Whyte with an Elk signet ring and wishing godspeed and good fortune to himself and Mrs. Whyte in their new home.

Mr. and Mrs. Whyte are old residents of the district, and for a number of years resided in Pincher Creek before coming to Blairmore. Mr. Whyte had been employed as tailor by Mr. J. E. Upton for upwards of eight years, later conducting a business of his own in Coleman, and owing to depressed conditions, he is going to try his luck elsewhere. Mrs. Whyte has been an untiring church worker ever since she has been here, and will be greatly missed in that circle.

Together with Mr. Whyte's father, they expect to leave for the coast next Wednesday, and we join with the above organizations in expressing regret at the departure of three of Blairmore's respected citizens.

Pee-Wee and Infantile Paralysis are two of the most serious epidemics facing science today. There is a chance of recovery from the latter, but a victim of the former will never again be normal.

## COLE'S THEATRE BELLEVUE

## Russia's Five-Year Plan

Under all normal conditions the people of Western Canada would display merely an academic interest in events transpiring and developments taking place in Russia, but for some time past, and to an ever-increasing extent, Russian policy has been being regarded as a definite factor in the prosperity of this portion of the Dominion, in fact upon the whole business structure of Canada, as well as of other countries.

It is difficult to find out exactly what is taking place in Russia, as many reports are both confusing and contradictory, consequently it is not surprising that people in this country are still puzzled and uncertain in their minds whether Russia constitutes a real and permanent menace to Canada, not politically or in a military sense, but economically.

Certain things have, nevertheless, become fairly well established. For example, it is known that in October, 1928, Russia inaugurated what is known as the "Five-Year Plan" of national development which observes on the spot in Russia describe as "the most interesting economic experiment anywhere in the world."

On October 1, 1930, the second year of this experiment will come to a close. So substantial has been the progress made now the slogan is: "The Five-Year Plan in Four Years." What is this "Five-Year Plan?" It was outlined by a Soviet Government agency over a year ago, and, in part, the plan—

"Provides for total capital investments in the five years beginning October 1, 1928, of \$33,000,000,000, or about two and one-half times the actual investments in the preceding five years. A goodly share of this will go for the construction of industrial plants and for the purchase of foreign equipment and machinery. The foreign-trade programme calls for imports of about \$3,200,000,000 during the period. Among the outstanding projects scheduled for construction, and in most instances completion, during the five-year period, are two tractor factories with an output of 40,000 units per year each, an automobile factory with an output of 100,000 cars per annum, a score of steel mills to produce over 5,000,000 tons of steel per year, many chemical, textile, machine-building, electro-technical, paper, glass, leather, and other factories, as well as a dozen or more large power plants, many mines, etc."

That was the "Plan," but, according to a Moscow correspondent of the Manchester Guardian, the "Five-Year Plan" in many instances is already surpassing the figures expected to be attained. He says: "The first version of the 'Plan' called for the production of 22,000,000 tons of oil and 10,000,000 tons of cast-iron in 1932; now these figures have been revised upwards, respectively, to 28,000,000 and 17,000,000. During the current year 221 new industrial enterprises, built at a cost of approximately \$425,000,000, have begun to function, and the list of unusually large factories which have been completed comparatively recently, includes a tractor plant, an agricultural machinery factory, a paper mill, a pipe factory, two oil refineries, several electrical stations."

The "Five-Year Plan" also included what practically amounts to the nationalization of agriculture, and the erection of these huge tractor and agricultural machinery factories, oil refineries, etc., are all a part of this new agricultural policy. The Manchester Guardian correspondent in Moscow, further notes that "in collective farming, 25 per cent. of the peasant households have already gone over to the co-operative method, although the "Plan" originally contemplated only 20 per cent. in 1933."

Russia is now dumping wheat, coal, lumber, into many European and other markets, further demoralizing the already badly demoralized world price for these commodities. The Russian Government is reported as having chartered a large number of vessels to convey wheat from Russia to England, Italy, and other countries, and that this wheat will be sold abroad regardless of price. The United States Government has charged that Russia has engaged in transactions on the Chicago grain markets to force down the price of wheat, and the Canadian Government has secured power from Parliament to prohibit Russian imports into Canada; the League of Nations at Geneva, is discussing the effects of Russian policy on all other nations.

It is further alleged that under Soviet auspices this great "Five-Year Plan" is being carried out by poorly-paid labor, and much of it forced labor, even convict labor; the new standard of living has been definitely lowered; that food and even clothing supplies are sharply rationed, with the result that other countries, with higher standards of living and greater individual liberty of action, cannot begin to compete with Russia.

The Bolshevik propaganda of Russia failed in its efforts to bring about world revolution, but its "Five-Year Plan" of economic development at home with a view to dumping huge quantities of goods and commodities on the world markets is, even before the "Plan" is one-half completed, having an adverse effect in all other countries, and further depressing already depressed business conditions throughout the world.

The farmers of Western Canada, who must depend for their success upon making profitable sales of their products in world markets, are among the chief sufferers.

## Sales Have Increased Rapidly

"Dry Ice" Is In Demand All Over the Country

The first pound of "dry ice" or solid carbon dioxide was sold for commercial refrigerating purposes in 1925, by the Dry Ice Corp., of America, and it is expected that "dry ice" sales for 1930 may reach 35,000 tons.

This material is being produced in 18 plants from coast to coast in the United States.

Gaseous carbon dioxide as generated from the evaporation of "dry ice" is of course cold, and by virtue of the low temperature of its origin, extremely dry.

Christopher Latham Sholes is known as the inventor of the typewriter. His first "writing machine" was the end of a telegraph key with the letter "w" cut in brass.

## Canada Held As Example

Has Solved Problem Of Minorities Says Sir Robert Borden

Canada was held up before the Assembly of the League of Nations as a shining example to peoples who are striving to solve the vexing problem of the minorities.

Sir Robert Borden, former premier of the Dominion, told representatives of Germany, Poland and other nations, whose relations are being constantly disturbed because of the presence of foreign racial groups within their borders, that the problem could be solved, and solved justly and happily.

"Give to the minorities every constitutional and legal right beyond a shadow of doubt," Sir Robert said. "On the other hand impress upon them the necessity for their co-operation."

## Over a Hundred Varieties

A single tree with approximately 125 varieties of apples has been grown near Martinez, California, by George Upham. It took more than twelve years of experiments to obtain the phenomenon. Upham has been grafting branches to the original tree since 1918. In the spring the grafted limbs bud at different times with blossoms in dozens of shades.

Minard's Liniment has a hundred uses.

## British Capital For Alberta

Anglo-Western Oils Limited To Commence Development Work

Five million dollars of British capital, organized under the name of Anglo-Western Oils Limited, with a federal charter and headed by Sir Edward Mann, chairman of the Phoenix Oil and Transport Company, and of the Daimler Company, both of Great Britain, has been made available for Alberta oil development, according to an announcement made in Calgary recently.

The announcement was made by J. C. Dallas, managing director of Calmont Oils Limited. Mr. Dallas said the company had acquired 400,000 acres in Alberta and two wells would be sunk immediately in the Milk River area.

## THE ANAEMIC GIRL

Who Has Lost Her Charm and Beauty

"She seems to be losing her looks." This remark is often heard about girls who were once noted for their sparkling eyes, their rosy cheeks and their vitality. The cause is not far to seek—they have become anaemic, that accounts for the pallor and the loss of charm. The anaemic girl, if she neglects her health, may be a sufferer all her life.

Take heed, you pale, anaemic girls. Plenty of fresh air, nourishing food and rest will help you, but what you need most is good blood. Those wretched headaches, that sick appetite and those terrible heart palpitations can only be banished if the blood is rich, red and pure.

Good blood—the kind that brings good health is created by Dr. Williams' Pink Pills. The whole mission of these Pills is to build rich, red, health-giving blood. The Pills are sold by all druggists in medicine bottles at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## High Educational Standard

Canadian School System Impresses Educationists

Visitors to Canada are invariably impressed with the country's educational system, particularly if they be men especially interested in the subject. It is greatly to be doubted if any nation on earth excels our own in the matter of schools of all kinds. Our educational system is thorough always, standards are high and our graduates emerge from schools and colleges with diplomas that have always placed their services in great demand across the line—Border Cities Star.

Do not allow worms to sap the vitality of your children. If not attended to, worms may do more harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

## Preparing For Old Age

Small Part Of Earnings Should Always Be Set Aside For Eventualities

No pension machinery, however well planned, can protect the man who lacks self-control to devote a small part of his earnings consistently to the protection of himself and his dependents.

That statement from the Carnegie Foundation for the Advancement of Teaching, itself a pension agency, is particularly suggestive. —Kansas City Star.

To have the children sound and healthy is the first cure of a mother. They cannot be healthy if troubled with worms. Use Mother's Worm Exterminator.

"I notice that customer you just attended to didn't buy anything, yet he seemed pleased," said the eagle-eyed floorwalker. "What did he want to see?"

"Me, at 8 o'clock tonight," replied the pretty clerk, blushing.

How a disease wipes out human beings who are not resistant to it, was shown when influenza was introduced into a Labrador community by 360 Eskimos, causing the death of 300.

## DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Headaches and dizziness. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within. The safe and harmless way. First correct the cause, sweeten the sour and add stomach, relieve the intestines of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red pigs.

## Real dyes give richest colors!

FOR every home use, Diamond Dyes are the finest you can buy. They contain the highest quality dyes and can be produced.

It's the aniline in Diamond Dyes that give such soft, bright, clear colors. Diamond Dyes are easy to use. They go on smoothly and evenly; do not spot or streak; never give things that re-dyed look. Just true, even, new colors that keep their depth and brilliancy in spite of wear and washing. 15c packages. All drug stores.

## Diamond Dyes Highest Quality for 50 Years

## American Food Demands

More Sugar, Fruits, Fats and Milk Products Are Consumed

The average American of 1930 will consume 150 pounds more food this year than his predecessor of 1900, according to the American Research Foundation.

"More sugar, fruits, fats and oils, and milk products are being eaten by the people of the United States," says the Foundation. "The per capita consumption of sugar is estimated at about 105 pounds this year, compared with 61 pounds per capita in 1900. Fats and oils will average about 44 pounds per capita this year, compared with 34 pounds a generation ago."

"Milk products consumption has increased from 840 pounds to 1,040, and fresh fruits from 189 to 192 pounds per capita."

"Meat consumption has shown little variation, ranging from 142 to 145 pounds a year per person."

"Figuring the increases with the declines, the average per capita food consumption shows a gain of 150 pounds annually in the last 30 years."

"An increasing preference for energy and heat producing foods is evident in the modern American dietary. Sugar largely supplies energy, while fats are necessary in generating heat and power for the body."

"Meat, milk and cream, and dozens of other items on the daily menu have a high fat content. The exceptional value of fat is that, in addition to supplying energy, they aid digestion by enhancing the palatability of foods consumed in the average meal."

## Canada Honors Her Scientists

Not Without Honor In Their Own Country Says Manchester Guardian

Canada's treatment of her scientists was lauded by the Manchester Guardian in a recent article on Dr. F. C. Banting, the young Toronto research worker who won fame for his discovery of insulin. The Guardian says: "It can never be said of Canada that her prophets are without honor in their own country. The case of Dr. Banting, the discoverer of insulin, is typical, for the brilliant young scientist has already received at the hands of his people all the honor of personal approbation that they can bestow. From other countries too he has received the recognition which is his just due, for he is manifestly the youngest man to win the Nobel Prize."

What the world owes to him can scarcely be computed, although when he first announced his discovery it was received throughout the world with a certain amount of credulity. The results obtained, however, soon placed the result beyond all doubt, and the Canadian Government took the unusual step of voting him a life policy to enable him to continue his medical research.

The Man With Asthma, almost loses for death to end his suffering. He sees almost only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

## Britain's Youngest Aviator

Miss Winifred Jess Drinkwater of Paisley, Scotland, is Britain's youngest aviator, having just received her pilot's license at 17, the minimum age for a British pilot. In flying solo she has beaten her machine like an expert. S. Baldwin, secretary of the Scottish Flying School, says she will be a great flyer.

Traveler: "May I show you my samples, sir." If you remember, I executed your last order with promptitude and dispatch."

Important Person: "I gave you no order."

Traveler: "Pardon, sir, you said 'Get out and I got.'"

The consumption of rice in Siam amounts to 400 pounds per person annually.

Minard's Liniment aids tired feet.

## Car Elaborately Equipped

Fittings in Limousine Of Jugoslavian King Very Complete

A Packard sedan limousine, recently delivered to King Alexander of Yugoslavia, is said to be one of the most elaborately equipped automobiles in Europe. The space under the glass partition separating the rear compartment from the driver's space is divided into a number of compartments. A large locker in the centre is fitted with a leather lunch kit, equipped with a complete silver and gold table service. In a double compartment at the right are thermos bottles for warm foods and a large toilet case. Thermos bottles for hot or cold liquids are fitted into a cabinet at the left of the centre locker, and in the top of this space are a first-aid kit and a large cigarette case.

A built-in compartment for the King's sword extends across the top of the three compartments, and the lid, which "protects the sword against dust, becomes a shelf when closed. Immediately in front of this is a tray to accommodate road maps.

## Source Of The Thames

Seven Springs In Colliwell Hills Feed World's Most Famous River

How many people—even among the millions who live upon its banks—could say offhand where the source of the Thames was to be found? The fact that so few of us know anything about the beginning of the world's most famous river is reflected in the statement, that, until recently the Thames had its source in a rubbish dump. Now the rubbish has been cleared away, and visitors to the source will find a little pool in a wood gulshing out, at one side, a stream gushing out. It is Seven Springs, the source of the Thames; but there is nothing to tell anyone that this is the case, and in the quiet Colliwell Hills, where Seven Springs is situated, we are not thinking of London and London's River. However, a plan is now on foot to lay out the site in a worthy manner and to build a fountain through which the Seven Springs may flow.

## Give The Devil His Due

An old Scottish woman, who had never been known to say an ill word about anybody, was one day taken to task by her husband, "Janet," he said impatiently, "I do believe you'd say a good word for the devil himself. 'Ah, well,' was the reply, 'he may be as bad as he might be, but he's a very industrious body.'"

A famous boxer has a complete record of his fights. No doubt he keeps them in a scrap book.

Her Two Children Had Summer Complaint

Mrs. J. J. MacDonald, Glace Bay, N.S., writes—

"I am the mother of six children, and would not be without a bottle of Dr. Fowler's Extract of Wild Strawberry in the house. My two youngest were very sick with summer complaint, and there was nothing I tried could equal that remedy, and I had tried most everything, but they could get no relief. 'Dr. Fowler's' made a change in both of them in less than two hours."

On the market for the last 85 years; put up only by The T. M. B. Co., Ltd., Toronto, Ont.

So Many Home Uses!

## SOVIETS HAVE SINISTER SYSTEM OF MARKETING

Montreal.—The menace of Russian wheat lies not so much in its volume, as in the marketing method which the Soviet employs, said Hon. Robert Weir, Dominion Minister of Agriculture, here.

"The Russians appear to have developed a particularly sinister marketing system," the minister explained. "They take a quantity of wheat and dump it on the market all at once and give the impression of having an unlimited volume. That breaks the market and creates a panic amongst our growers. They think that there is no outlet for their wheat, whereas there is, of course, always an outlet."

The minister would not forecast how long the present Russian situation would overhang the market. He repeated, however, that it was not the volume but the marketing method of the Soviet which was the danger at the present time, and added that it would take but a relatively small change in the general situation to induce a substantial movement upon the part of Canadian wheat.

Hon. Mr. Weir outlined his hope of building up not only a substantial cattle trade with Britain, but also an interprovincial trade between Eastern and Western Canada in chopped feed for livestock. Both these trades, he believed, were capable of substantial development, which would redound to the advantage not only of the western farmer, but also of the Eastern Canadian dairyman.

New York.—The world today quoted Aaron Sapiro, on authority on commodities and marketing, as saying he believes the Russian Soviets are planning a billion bushel crop for the coming year, which they can produce at 50 cents a bushel at Black Sea ports, as compared with the American production cost of upward of 90 cents. A great part of this crop, he thinks, can be dumped on foreign markets.

He said he had reason to believe that Russia was figuring that the United States next spring would have a surplus of at least 300,000,000 bushels of wheat, together with the huge Russian crop, would depress prices greatly.

The short sales in his opinion were made to make money for the all-Russian textile syndicate, which expects the price to be down as a result of the huge Russian crop, and to be able to cover at a large profit.

### For Relief Of Farmers

Alberta Government Taking Steps To Ameliorate Conditions

Calgary, Alberta.—Among plans being considered by the provincial government for the relief of Alberta farmers during the coming winter, Premier J. E. Brownlee announced here, were separate conferences between the cabinet ministers and the province and representatives of implement companies, mortgage and loan companies, automobile finance corporations, and the Retail Merchants' Association, which have been arranged by Attorney General Lynburn, to take place in Edmonton.

A meeting of the bank representatives with government officials was held a few days ago, and four of the cabinet members conferred with the livestock interests in the north.

"The farmer must be allowed his living this winter, and we are trying to get to the bottom of the situation and then decide what can be done. Among other things, it may be possible to bring in enough livestock to use up the surplus coarse grains and fodder crops this winter," the premier stated.

### Deplores Alarmist Talk

Dr. Swanson Says There Is No Over Production Of Wheat

Quebec, Que.—All alarmist talk of world over-production of wheat was in his opinion, wholly unwarranted, Dr. W. W. Swanson, of Saskatoon, head of the Department of Economics of the University of Saskatchewan, said, prior to sailing for London, England. Dr. Swanson is one of the wheat experts attending the London conference in an advisory capacity.

"What is the world's basic food; there has never been any true surplus of food and there probably never will be," Dr. Swanson said. "There certainly is no excess at present, and any country such as Canada may regard its stores of wheat as the truest form of wealth, certain to be converted into money on a fair basis of price, despite temporary difficulties of marketing."

## Manitoba's First Welfare Conference

Important Conference To Be Held In Winnipeg Early This Month

Winnipeg, Man.—Much interest is now being taken throughout the Province in the first Manitoba Conference on Social Work, that is to be held at the Marlborough Hotel, Winnipeg, on the 7th, 8th and 9th of October.

This is to be a conference where everyone interested in social work or any phase of it, including social workers, church workers, teachers, nurses, municipal officials, school trustees and board members, and those who come in contact with the different human problems of their communities will be welcome, and their part in the discussions appreciated.

Much study has been given over the past six months to the series of topics related to Manitoba problems that should occupy a place on the program, and to the securing of the most qualified persons to lead in their presentation and discussion. Over fifty men and women, all prominent in their various fields, have already accepted certain responsibilities for this purpose.

Two outstanding speakers, Dr. Bernard H. McNeil, of Orillia, Ontario, Canada's foremost authority on the training of the feeble-minded child, and Dr. Henry L. McKay of Chicago, a noted student of the problem of the delinquent, are among those on the program.

The problem of the underprivileged or wayward child, the destitute or broken up family, the mental defective, the delinquent, in their various aspects, as well as such general topics as "Health and Employment" are all listed for discussion.

The financial burden placed on provincial and municipal funds, as well as the calls on the purse of the benevolent individual, are each year assuming greater proportions. There is, in addition, an ever-widening belief, and in consequence, an increasing pressure on the public authorities, that for the general good more will have to be done in dealing with the problem of the mental defective.

It is difficult, then, for its care in the country is now passing through the question of family relief and the responsibility for its care is assuming a new importance.

All such questions are giving increased thought and anxiety to those interested in the welfare of their province, and the necessity for an intensive study of the problem is being emphasized.

The State of Minnesota, for over 30 years, has held annual conferences on its welfare work and every year has arranged an increasing help to those engaged in social work. A representative attendance from all over the Province should give to this first Manitoba Conference on social work, decisions and results of the greatest benefit, and work out the methods for dealing with some of the immediate difficulties.

To those desiring the detailed program of the conference, a request to Secretary, 703 Wolsley Ave., Winnipeg, Manitoba, will secure it.

### Is Proving a Success

Canadian Cattle Exports To Britain Favorably Received

Ottawa, Ont.—"The resumption of Canada's export of cattle to the Old Country has apparently got away to a good start," commented H. S. Arkell, Dominion livestock commissioner, following receipt of a report on the initial shipment of Canadian beef cattle to Manchester, England.

"Our cattle have evidently met a very satisfactory reception despite the fact they arrived on the market during one of the hottest spells of weather England has experienced in 20 years," Mr. Arkell said.

"Now that we have made such a good start, Canadian shippers should see to it that no inferior cattle are allowed to go overseas."

### Saving To Dairy Farmer

Cream Exporters Now Have Inspection Free Of Charge

Ottawa, Ontario.—As a measure of relief for dairy farmers producing milk and cream for export to the United States, Hon. Robert Weir, Minister of Agriculture, has issued instructions to the veterinary inspection staff that beginning September 22, inspections required under the United States Federal Import Milk Act permit of milk or cream being shipped into the United States, shall be made free of charge.

This means a saving to the dairy farmer of from \$2 to \$5 or more for the official inspection of his premises and herd.

### Evolves White Tomato

Vancouver, B.C.—A returned soldier farmer at Chilliwack, after years of experimenting, has produced a white tomato. This fruit, unusual variety is non-acid and has been cultivated especially for sufferers from diabetes.

## SPIRITED REPLY TO CRITICISMS OF WHEAT POOL

Saskatoon, Sask.—The individual farmer in Saskatchewan is harder pressed financially today than he was in 1923, when the Wheat Pool was founded, and depression was worldwide, in the opinion of H. S. Fry, of Regina, publicity director of the Saskatchewan Wheat Pool.

Commenting on the Winnipeg news despatch which said that reports had been circulated to various exchanges that the Pool was facing financial disaster, Mr. Fry said that was "only an exaggerated example of what has been going on particularly during the past three months."

Opponents of organized marketing on the part of farmers, he said, considered the present an opportune time to try to shake the faith of farmers in their marketing organization. The attempt would fail, he was convinced. The Pool was handling a larger percentage of the crop than last year.

Whatever happens, farmers will not go back to a system which the great majority of them have abandoned because of its failure to give due consideration to the producer as a primary factor.

The spreading of maliciously faked reports such as the one circulated recently the director termed "as traitorous to the national welfare and the welfare of agriculture in Western Canada, as it is well-timed psychologically."

"I can only repeat," said Mr. Fry, "what has already been said from so many official quarters, that there is absolutely no foundation whatever for this malicious story."

This is a matter which, of course, directly affects the business of the central selling agency, but attacks such as this, made under cover and designed to misuse the power of the press, are not unheard of in our experience previously, and are aimed primarily at breaking down the morale of the membership of the provincial pools, on the basis of which the C.S.A. operates.

Many factors combined to create the farmers' spry financial condition. Mr. Fry believed, among other things, low prices, short obligations to producers, accumulated during years of higher prices, and the general world-wide depression.

"This unusual combination of circumstances is being used to the utmost by those who would injure the Pools through any means of direct label," he said, "and the incident is only an aggravated example of what has been going on in a lesser way continually and in the last three months in particular."

"All these efforts to undermine organized marketing in this province are foredoomed to certain failure. Farmers may well be disappointed at the present low level of prices. Cash wheat has dropped nearly 50 cents on the Winnipeg market since the beginning of the present crop year."

### Seeking Cause Of Depression

Geneva, Switzerland.—Susan Lawrence, Labor chairman and parliamentary secretary to the ministry of health in the MacDonald cabinet, in the name of the British Government urged the League of Nations assembly to institute a world-wide scientific inquiry into the fundamental causes of economic depression reported by virtually all countries on the globe.

### NEW CABINET MINISTER

Hon. W. A. Gordon, Minister of Immigration and Colonization, Ottawa, Canada.

### 'Plane Makes Speedy Trip

Six Hours For Flight From Oklahoma To Winnipeg

Winnipeg, Man.—Nine hundred and thirty miles in 385 minutes—almost 23 miles a minute—that is the record made by Daniel J. Moran, president of the Continental Oil Company and four companions, including W. M. Harrison, managing editor of the Daily Oklahoman and former editor of the Winnipeg Tribune, in the fastest trip ever made by humans from Oklahoma City to Winnipeg.

Mr. Moran had a date in Winnipeg with Governor Sales of the Hudson's Bay Company, and he started from the southern city with a forty-mile wind trying to pound his tail all the way through. He left there in the morning and had lunch in Winnipeg and was smilingly shaking hands with Governor Sales nearly 1,000 miles from his starting point in the afternoon. He used his own trim-motor custom-built Ford monoplane.

### Relief Work Started

Unemployed Mine Workers Of Nova Scotia Will Receive Help

Halifax, N.S.—Distribution of relief to mine workers and their families in the various colliery districts of Nova Scotia affected by unemployment will be started immediately, the post to be borne by the Federal and Provincial Governments and the municipalities in communities concerned. This statement was made by P. W. Morrison, president of the United Mine Workers, district 26, and mayor of Glace Bay, following a conference with Hon. Percy C. Black, acting premier of Nova Scotia.

### Illicit Narcotics Traffic

League Of Nations Told That Canada Is One Of The Victims

Geneva, Switzerland.—Mrs. Mary Irene Paribyl, of Alberta, told the social questions committee of the League of Nations that Canada is one of "the victims" of the illicit traffic in narcotics.

She said the situation was improving, however, owing to the arrest of many taking part in the traffic. "Through control of narcotics entering Canada has also aided in decreasing the quantities illegally brought in."

### Civil War Veteran Dies

Sault Ste. Marie, Ind.—The 21st Indian Battery with its bright Civil War record today is only a memory. Its last surviving member, Charles A. Lawson, 89, was buried here recently.

### BISHOP-ELECT GOES TO NEW DIOCESE

His Lordship J. Rodrigue Villeneuve, bishop-elect of Gravelbourg, Saskatchewan, accompanied by other high Roman Catholic dignitaries, passed through Winnipeg recently en route to Gravelbourg by the Canadian Pacific private car Montmorency. This photograph was taken upon their arrival at Winnipeg where they stayed a short time. From left to right: Bishop Guay, O.M.I., Archbishop Porbes, of Ottawa, Bishop J. Rodrigue Villeneuve and Bishop J. Prud'homme, of the diocese of Prince Albert-Saskatoon.

## See Trade Revival

Bankers Predict Permanent Improvement In Volume Of Business

Victoria, B.C.—"We have reached the bottom and are at the turn," Sir Robert Holt, president of the Royal Bank of Canada, said here recently in commenting on conditions in Canada.

"There is no stringency of money in the country," commented Sir Charles Gordon, president of the Bank of Montreal, another Canadian financier visiting here.

"The trade of the country has suffered a setback due in some measure to the low price of commodities, but there is a better feeling now," Sir Charles added.

"The revival is coming, but it will be gradual," he continued. "There is plenty of money in the country for the business being done and we are always ready to advance loans for legitimate commercial enterprise."

"This year's crop, which has been estimated at four hundred million bushels, is better than had been expected, Sir Charles commented.

"There should be a permanent improvement in the volume of business done by the manufacturers of the country," he said when questioned concerning the new tariff.

## OUTCRY AGAINST THE DUMPING OF RUSSIAN WHEAT

London, England.—Wheat will play possibly a dominant part at the Imperial Conference discussions. The problem of Russian wheat produced under conditions of semi-serfdom, has raised an outcry not only in rural England but across the agrarian states of Europe.

It has given the movement for wider Empire preference impetus such as no mere academic discussions could possibly have done.

Nevertheless there are strong doubts as to whether the present Imperial government would be prepared to impose a duty on foreign wheat. The "Free Traders" and the "Free Fooders," such as Rt. Hon. Philip Snowden, Chancellor of the Exchequer, and Rt. Hon. William Graham, president of the Board of Trade, are such at the economic helm at Downing Street.

The Rt. Hon. J. H. Thomas, Secretary of State for the Dominions, has a counter scheme which would accord preferences by way of bulk state purchases. But although Mr. Thomas has not yet divulged the details of his plan it is meeting strenuous criticism on the ground that it will increase the price of food.

The Daily Herald, Labor organ, dismisses the outcry against the dumping of Russian wheat as a political stunt.

In regard to the conference on Dominion legislation, whose report comes up for consideration at the Imperial Conference, the Manchester Guardian remarks that its findings, as a whole, will doubtless be adopted without much difficulty.

"The right of the British Government to disallow or reserve Dominion legislation has become purely theoretical and the recommendation that it should finally be abolished is not likely to be disputed," says the Guardian.

"It is well, however, to recognize that this means that minorities such as the Southern Loyalists in Ireland and the Afrikaners in South Africa, no longer, even in theory, look to Britain for protection."

"That Dominion legislation should have extra-territorial validity is also a necessary and desirable result of equality. Difficult questions arise, such as the uniformity of merchant shipping legislation within the Empire, but this will be of the greatest value."

"If a dominion which now has no mercantile marine, asserts its desire to fly its own flag to the exclusion of one which marks it as a member of the British Commonwealth, there will be no thumbing from Whitehall to deny its right to do so."

The Guardian believes, however, that if the test actually came a practical convenience of flying a flag which the British navy would recognize and protect would likely weigh heavily against the pleasure of asserting undisputed independence.

Regarding the much-discussed abolition of dominion appeals to the judicial committee of the Privy Council, the Guardian remarks that those who are alarmed to hear talk of modifying the tribunal's functions may be comforted by the fact that the three or four final imperial courts is recognized even by those dominions which have taken the most pleasure in flouting the authority of the present one.

## CAREFUL CHECK WILL BE KEPT ON IMPORTERS

Ottawa, Ont.—Careful checks on the transactions made by Canadian importers under the section of the new tariff which permits bona fide contracts for goods to escape the higher duties until Nov. 30, will be made by the Department of National Revenue, it was announced by Hon. E. B. Ryckman, the minister in charge. Under regulations issued recently, the department will demand from the importer a copy of the original purchase order attested to by affidavit and, in addition, proof of acceptance prior to September 16 last, of the order of the exporter.

The new tariff bill was amended in parliament by Premier E. B. Bennett so as to permit importers to bring into the country under the old rates until November 30, goods which had been on order prior to September 16. The new regulations will attempt to prevent fraud in this connection. Heavy penalties have been set forth for infringements of the new regulations which include seizure and forfeiture of the goods or a fine equal to the value of the goods, and further prosecution in the courts.

The regulations are aimed at unscrupulous importers falsifying dates of purchase and antedating orders. Mr. Ryckman said when announcing the rulings. "Fear that the benefit of the recent tariff changes might be lost through such action had been expressed to him by Canadian producers. The view had been placed before him, he added, that a large quantity of goods might be brought into the country that Canadian production might be hampered, thus defeating the goal of the tariff changes—that of relieving unemployment in the country."

The regulations, prescribing proof of bona fide purchase by contract prior to September 16, require the following: Copy of original purchasing order attested to by affidavit of importer and a copy of the bill of lading for the exporter prior to September 16. It was stated further: "No purchase order will be accepted as bona fide which does not specify definite quantity or quantities with definite price or prices and provide for delivery in Canada on or before November 30, 1930."

### Price Of Glass Advances

Ottawa Government Will Make Thorough Investigation

Ottawa, Ont.—The price of glass has advanced since the new tariff, which sharply increased the duty on this commodity, went into effect according to advices received by the Department of National Revenue.

In regard to the conference on Dominion legislation, whose report comes up for consideration at the Imperial Conference, the Manchester Guardian remarks that its findings, as a whole, will doubtless be adopted without much difficulty.

"The right of the British Government to disallow or reserve Dominion legislation has become purely theoretical and the recommendation that it should finally be abolished is not likely to be disputed," says the Guardian.

"It is well, however, to recognize that this means that minorities such as the Southern Loyalists in Ireland and the Afrikaners in South Africa, no longer, even in theory, look to Britain for protection."

"That Dominion legislation should have extra-territorial validity is also a necessary and desirable result of equality. Difficult questions arise, such as the uniformity of merchant shipping legislation within the Empire, but this will be of the greatest value."

"If a dominion which now has no mercantile marine, asserts its desire to fly its own flag to the exclusion of one which marks it as a member of the British Commonwealth, there will be no thumbing from Whitehall to deny its right to do so."

The Guardian believes, however, that if the test actually came a practical convenience of flying a flag which the British navy would recognize and protect would likely weigh heavily against the pleasure of asserting undisputed independence.

Regarding the much-discussed abolition of dominion appeals to the judicial committee of the Privy Council, the Guardian remarks that those who are alarmed to hear talk of modifying the tribunal's functions may be comforted by the fact that the three or four final imperial courts is recognized even by those dominions which have taken the most pleasure in flouting the authority of the present one.

## Expect Collapse Of Gandhi Movement

Indian Government Reports Revolt Is Nearing End

Simla, India.—The collapse of Mahatma Gandhi's civil disobedience movement was prophesied in the Indian government's weekly communication on the political situation in the country.

The communique said that the influence of propaganda of National Congress agents was "rapidly evaporating" and though still important in rural areas was destined to fail inevitably because of the deleterious economic consequences of the civil disobedience campaign.

### Executions In Russia

Forty-Eight Revolutionists Are Shot For Destroying Food Reserves

Moscow, Russia.—All members of a secret counter-revolutionary society, numbering 48, who were found guilty of seeking to starve the population of the Soviet Union by destroying the food reserve of the country, were shot recently by the OGPU, as "unreconcilable enemies of the Soviet government," and active counter-revolutionists.

Professor Alexander Ryazanov and Eugene Karatyguin headed the list of executed governmental officials.

Spain has abandoned its plan for a radio monopoly.

## CHAINS, CHAIRS AND CHEERS

The Editor is beginning to feel much like a helmeted crusader at a Saracen picnic in Syria—very helmeted. Editors are notoriously altruistic; they are not like lawyers, who talk only for money, so we are told. No matter how cold it is, we will find an Editor; no matter how hot it is, there is always an Editor to be found. The fjords and bays of Norway are probably full of Editors and Hjell is, according to the politicians. An Editor even took his typewriter up in the air in Doc Eckner's Zeppelin. But he came down again.

Folks think that Editors love to work. Even the poorest Editor needs a little cooperation to make his job a success. One would think that the conveners of committees, heads of social activities, etc., around town, belonged to the Mafia; or that some rule has been passed that no information on any subject should be allowed to be given to the Editor.

Well, the sooner we learn to make friends of the Editor and drive the pen over a few lines for him, the sooner we shall have a worth-while paper. Try stubbing the old toe on a real snappy account of your doings, Mr. Chairman. Rotate the old bean a few times on a blood-curdling, side-splitting story of your last meeting. And then you may be an Editor yourself, someday, what?

## LESSON IN CREATIVE SERVICE

For six years three printers have drawn blood on a music catalogue. The price in that time had dwindled from \$6,300 to \$4,700.

Then the buyer lost his job, and a new buyer gave the next year's catalogue to an out-of-town printer at \$7,950. It was a handsome thing; it sold more banjos than you could shake a piccolo at. And the out-of-town printer sat pretty, because local printers had been six years proving they couldn't cheaply print a catalogue that would sell instruments.

You see, each printer had been sitting the other's throats to keep his own from getting slit, instead of trying to sell saxophones. The buyer was never warned that if he didn't buy a catalogue that would sell instruments he would soon be dumped out.—Spinal Columns.

## OFFICIAL IMITATION

(From the Border Cities Star)

That there are imitations to the authority of police officers is shown by the sentencing of the chief constable of Hanover, Ontario, to a jail term for an assault on a young man he arrested. It was not a case of persecution of an innocent person, for the prisoner who was the victim of the attack is himself in jail after being found guilty of theft.

The chief, however, was too rough in making the arrest. He blackened the youth's eyes, loosened several teeth, and poked the barrel of his revolver into his mouth. The courts decided that despite the officer's position, he was guilty of assault.

This is an instance of British justice which should be enlightening to some countries where the police are all-powerful. Under the British flag, even criminals have the right of protection from the abuse of officialdom.

He: "What are all those men doing with their heads together? Is it a football game?"

She: "No, my dear; just a bunch of Scotchmen lighting a cigarette."

## BAD BOYS

The problem of what to do with our bantam juvenile delinquents is still with us. And what in spite of the fact that two generations of reformers of one kind and another have seen at work for his (and occasionally her) correction, at the end of the century with the establishment of the first reformatory school in 1854. It cannot be said that the work of these reformers has been in vain and yet they must learn with disappointment that major and minor offences show an increase of 3.7 per cent. The annual report of the Dominion Bureau of Statistics for the year ended September 30, 1929, gives the number of juvenile delinquency cases dealt with in the courts of that year as 10,509. Of these, 237 were dismissed cases of minor charges, 2,446 cases adjourned sine die, and 7,826 proven cases. Of the last 2,106 were major cases and 1,720 minor offences. This is an increase of 43 major and 84 minor offences as compared with 1928.

The principal offence in the major class is, as has always been, theft which, including breaking and entering, constituted 79.4 per cent of the total number of offences. Of the 2,720 minor delinquents 691 were cases of breaches of municipal bylaws, 343 disorderly conduct and disturbing the peace, 227 incorrigibility, 484 trespass and 327 truancy. More than 83 per cent of the offenders were from cities.

Are we then to conclude that juvenile workers have not succeeded in their task? By no means. Nearly every civilized country has provided institutions for the care and training of juvenile delinquents and this country is one of those which has established juvenile courts, presided over by justices of the peace whom our able have got into the way of designating quite unofficially "judges." But all this is for the correction of offenders. What can we do about the prevention of offence? Every system of dealing with the juvenile offender (and in some societies the term includes adults who are juveniles) in crime though not necessarily in years in a manner appropriate to himself. It starts out with the thesis that to throw him into prison is only to put him into contact with hardened offenders from whom he will learn more crime. But it will not be denied that many of the "prisoners" at the bar of the juvenile courts get their contacts before they made their first appearance before the "judge." Our old enemies, heredity and environment are not always absent and environment can effect the child in two ways; occasionally by contact with criminal parents but much more frequently by absence of contact with otherwise irreproachable parents who simply "can't understand what has come over" their children.

There are, of course, children who will be "bad" just as there are grownups. On the principle that boys will be boys, a sign which says "No Trespassing" is generally a magnet which impels them to do so and the presence of a cool swimming hole on a hot day is generally a temptation to truancy just as many a tired business man hangs up the "Gone for Lunch" card and goes off to the golf course. But the experiment of checking delinquency in the home is one which can be tried by every parent, and society can extend the experiment by providing more playgrounds for its children and more manly and womanly recreation for the teen age youths, among whom most of the juvenile offenders are recruited.—Calgary Albertan.

"Is your husband a good provider, Dinah?"

"Yesum. He's a good providah, all right, but I's always skered dat nigrah's gwine get caught at it."

Hazel—"Where have you been?"

Lillian—"In the hospital getting censored."

Hazel—"Censored?"

Lillian—"Yes; I had several important parts cut out."

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor  
Serve the church that the church may serve you.

Services, Sunday, October 5, the pastor in charge.

11 a.m.—SENIOR SCHOOL.  
2 p.m.—JUNIOR SCHOOL.  
7:30 p.m.—PUBLIC WORSHIP.

The preacher for the evening will be Rev. Thos. Powell, D.D., superintendent of missions for Alberta. Dr. Powell's visit has been long promised and eagerly awaited. Come early. On Monday at 8 p.m. a meeting of the Official Board will be held, Dr. Powell being the honored guest.

## ST. LUKE'S CHURCH

Services for Sunday, October 5th: 10 a.m.—Sunday School.

7 p.m.—Evensong and Harvest Festival service. Donations of fruit or vegetables, to decorate the church for this service, will be gratefully received on Saturday afternoon, when those who are to do the decorating will be on hand.—A. S. PARTINGTON, Vicar.

## SALVATION ARMY, COLEMAN

Sunday, 11 a.m.—Holiness meeting; 2 p.m., Directory class for the young people; 2:30 p.m., Company meeting; 7 p.m., Salvation meeting.

CHURCH CONFERENCE  
AT LETHBRIDGE, OCT. 15

For a number of years it has been the custom of the United Church to hold a number of conventions during the autumn for the consideration of the whole work of the church. This year, for the first time, such a gathering is to be held in Southern Alberta, with meetings to be held on October 15, in Knox church, Lethbridge.

Three speakers of exceptional interest will be heard at these meetings. Rev. J. A. Finlay, M.A., Rev. J. Arnp, D.D., and Rev. C. D. Donald, B.D. Rev. Finlay has been representing the Church of Scotland at the recent meetings of the General Council. His visit will be a very timely one, for all across Canada there is deep interest in the recent union of the Church of Scotland with the United Free Church. Dr. Arnp, who is associate-secretary for Foreign Missions, visited China and Japan during the past winter and will have a message of vital interest concerning the conditions there. Mr. Donald is one of the church's missionaries to Central India, having served there since 1915. He has only recently arrived home from India and has first-hand knowledge of both the political and religious situation in that part of the British Empire.

Arrangements have been made for the ladies of First United Church to serve supper in the convention church. At that time, Dr. Thomas Powell, superintendent of missions for Southern Alberta, will speak on "The United Church at Work in Alberta."

Of interest is the amount of gear carried by Vanderbilt's Enterprise, winner against Sir Thomas L'pion's Shamrock V. The fittings included seven mainsails, five spinnakers, six balloon jibs, four Genoa jibs and a score of staysails, jibs and jibtopsails, the total value of the collection being estimated at more than a quarter of a million dollars. The mainsheet rope was 592 feet long, of three and a half-inch manila rope, rove through four blocks. The main boom was four feet wide, permitting two men to walk the length of it side by side.

## Local and General Items

A quiet wedding is one where money doesn't talk.

Mr. Colombo, of the Peop's Bakery, reduced the price of bread on October 1st, to 14 loaves for \$1.00.

It shouldn't be necessary for some kids to go to the seashore to get tanned.

Sometimes a man puts his religion, as well as his property, in his wife's name.

If your business runs smoothly for a long time, watch out—it is running downhill.

A pen manufacturer is really a bad man. He makes people steel pens and tells them they do right (w/r'te).

Liberty is like wealth in that it should be carefully used if it is to fulfill its purpose.—Ramsey MacDonald.

Frank Haqueol, well known member of the Fort William amateur hockey seniors, is dead at the age of 31 years.

The Bohemian girls and boys of Frank are holding a benefit dance, in aid of the children's Christmas tree fund, in the Frank hall on Wednesday next.

Part of the maintenance expenses of Montreal hospitals is derived from a tax on liquors and drinks, approximating around 20% from the consumer.

James Hawkins is spending a week with his old friend, Allen Carswell, at Lundrebeck. They were great pals, when both held big positions with the Hudson's Bay Company.—Drumheller Review.

The presence of thousands of gulls along the shores of Lake Ontario is accounted for by the fact that away back in 1820 a Scottish vessel sailed up the St. Lawrence to that point—and were then fed by the Micmac Indians.

On Sunday at a meeting in Coleman of mine workers, Murphy, Communist agitator and professional stirrer up of strife, was denied even a seat in the meeting by the president. He therefore held a meeting of his own on Sunday evening.—Coleman Journal.

The Montreal Herald has taken up the cudgel in the interest of unemployment, claiming that employment agencies are selling jobs to the highest bidder and downing many who have been born and brought up in Montreal or Canada. The Herald is issuing coupons, to be turned over to the Protestant Employment Bureau, a free employment agency maintained by the federal charities of Montreal.

Tests of the electrical storage battery invented by Dr. James Drumm, the young Irish scientist, are being made in Great Britain. Dr. Drumm claims that his device will eliminate the use of coal on railways. In one test, the battery, mounted on a specially constructed car, propelled a vehicle carrying twenty people for forty miles at thirty-five miles an hour under its own stored power. No doubt but that everybody interested in coal mining will watch experiments along this line with concern.

"With the United States 'absolutely dry,' it is very interesting to note some opinions expressed by those who have had occasion to visit certain cities across the Canadian border. Recently, Rueben Salter, mayor of an English city, spent a few days in Boston. During his stay, he claims to have been given all kinds of opportunities to procure liquor, one party offering to bring a trolley load of it to his hotel and do it in five minutes. In spite of the fact that in the province of Quebec liquor can be purchased in any quantity by anyone and without permit, and that one may have wines and beer served with meals at licensed hotels, it is seldom one has to witness a person suffering from the influence of liquor; while in almost any state in the union drinks may be seen any day in the year."

## CORBIN HAPPENINGS

(From Our Own Correspondent)  
Miss A. Wilson spent the weekend  
in Fernie.

Mr. and Mrs. W. Stone motored to  
Fernie on Saturday.

Mr. Walter Lord, of Blairmore, was  
a visitor here on Sunday.

A new barber shop, located in the  
Hotel, was opened up this week.

Mr. E. Linville, of Blairmore, was  
a Corbin visitor on Saturday last.

The Ladies' Aid held a meeting at  
Mrs. W. Almonds on Thursday night  
last.

Mr. and Mrs. M. A. Murphy and  
family, of Cowley, were town visitors  
on Sunday.

Mr. J. Thompson and Mr. Harry  
Gardner were Coleman visitors over  
the weekend.

Mr. W. Crossfield is spending part  
of his vacation hunting big game in  
the vicinity of Corbin.

A special meeting of the athletic  
association was held on Wednesday  
last, to attend to different matters  
concerning the town skating rink.  
Work on the rink is progressing fa-  
vorably now, and the officials hope to  
have all details completed by freeze-  
up.

C.P.R. NEW EQUIPMENT  
FOR THE NORTH LINE

Changes and improvements in  
equipment on the Calgary-Edmonton  
line of the Canadian Pacific were  
made Sunday, September 28th.

Improvements to equipment in-  
cluded: bucket seat cars, brand new  
and just out of Angus Shops, Mon-  
treal, built especially for Calgary-  
Edmonton service. They have many  
distinctive features that make them  
most up to date.

Some of these features are as fol-  
lows: all steel construction; latest  
type of easy riding six-wheel trucks,  
equipped with rubber shock absorbers  
adding materially to the smooth-  
ness of operation; latest air brake  
equipment, such as used on the best  
trains of the American continent;  
electric thermostatic heat control,  
maintaining even temperature regard-  
less of weather conditions; latest type  
colling ventilation system, not affect-  
ed by direction of wind, the so-called  
deck dashes abolished; toilets of the  
sanitary pedal-flush type and wash  
basins equipped with sanitary liquid-  
soap dispensers; bright, yet soft,  
electric lighting effect; floor cover-  
ing of a special composition, acting  
as an insulator and sound deadener;  
improved weather stripping for the  
windows; interior wood work in beau-  
tifully finished mahogany; length  
over all eighty-six feet.

With the change of title table ef-  
fective Sunday the 28th, the equip-  
ment on trains between Calgary and  
Edmonton will be as follows:

Nos. 521 and 522, the night trains,  
between the two cities will have a  
buffet library compartment observa-  
tion car, similar to the ones used on  
the main line trains. Light supper  
at night and light breakfasts in the  
morning may be obtained. These  
trains will also have usual steel  
standard sleeping cars and day  
coaches.

Nos. 523 and 524, the morning  
trains, will have smoking cars, new  
bucket seat coaches, cafe cars serv-  
ing breakfast and lunch, and large  
parlor cars, which are supplied with  
current popular magazines.

Nos. 525 and 526, afternoon trains,  
will have smoking cars, new bucket  
seat coaches, cafe cars, and a new  
type of parlor car, having an observa-  
tion end, similar to the observation  
cars on transcontinental trains. These  
cars have current popular magazines  
for the use of patrons.

The many new features in this ser-  
vice will undoubtedly meet with the  
approval of the large number of peo-  
ple who travel between Calgary and  
Edmonton and intermediate points.

Blogs: "Try this cigar. The  
brand's wonderful. You can't get  
better."

Nogge: "I tried 'em yesterday ---  
and I can't get better."

## BRILLIANT CAST SUPPORTS

RAMON NOVARRO IN NEW  
MUSICAL FILM

Ramon Novarro, in the picture  
which first brings his voice to the  
talking screen in operatic song, is  
surrounded by one of the most  
elaborate casts he has headed in a  
long time, in "Call of the Flesh,"  
Metro-Goldwyn-Mayer's romantic  
drama with music, which will show  
Friday and Saturday at Cole's theatre  
Bellevue.

Dorothy Jordan, who played op-  
posite the star in "Devil May Care"  
and "In Gay Madrid," again acts as  
his heroine in the present story, a  
vivid drama of the life and love of a  
Spanish Opera singer, the role played  
by Novarro in the picture. Renee  
Adoree, who played with him in "The  
Pagan" and "Forbidden Hours" and  
won fame as "Melisande" in "The  
Big Parade," plays the rival sweet-  
heart as a fiery Spanish dancer.

Ernest Torrence is seen as the  
singer's aged teacher, a former opera  
star, and Mathilde Comont, French  
stage actress, appears as another  
former opera star, also aiding in  
launching the young singer to suc-  
cess.

Nance O'Neil is seen as the mother  
superior in the convent scenes, and  
Russell Hopton, stage actor, plays a  
talking screen role as the heroine's  
brother.

Novarro sings several songs, "Not  
Good Enough for Me," "Not for To-  
day" and "Loving Thoughts of You."  
He and Renee Adoree also appear in  
a vivid Spanish dance number.

## CRUELTY TO ANIMALS

The stories of dogs, who lay shiv-  
ering in the rain, or crying plaintive-  
ly under the stars, hugging the slim  
green mound, which held one whom  
they idolized, took up a good many  
pages in the old school reading books.  
Children read them, learning not only  
the pronunciation of words, but the  
meaning of loyalty. And dogs are  
really loyal—more than one has  
given his life for his master.

We wonder if the man in a distant  
city, who prepared a terrible punish-  
ment for a dog the other day didn't  
know this.

Apparently he didn't. He kept on  
throwing more and more dirt into a  
hole where he had placed the little  
animal. He packed it harder and  
harder, until finally the dog was  
covered, and he couldn't see the eyes.  
Just the nose was left above the  
ground.

Then the man went away.  
Neighbors, hearing the dog's cries,  
came, found the nose and dug the  
animal out.

The dog had been digging holes in  
his yard, the owner explained. He  
had cured other puppies of this habit  
by burying them in the ground for a  
time, noses exposed so they could  
breathe. He was merely trying the  
same method of punishment and  
training with this puppy.

It is a little hard to realize that  
there are people in the world who  
still viciously inflict suffering on an-  
imals. But occasionally we have to  
wonder if there aren't some people,  
who might profit a little by a few  
hours of—say, brutal with merely  
their noses exposed.—New Glasgow  
Free Lance.

## THE LADDER OF SUCCESS

100%—I will.  
90%—I can.  
80%—I think I can.  
70%—I might.  
60%—I think I might.  
50%—It's possible.  
40%—I'll think it over.  
30%—I wish I could.  
20%—I don't know how.  
10%—I can't.  
0%—I won't.

We are Also Displaying New Goods, Showing some of Our Splendid Values.

And then there was the Scotch  
aviator who always flew lopsided, so  
he could keep his money in the bank.

The day of the flapper is over, says  
a writer in a Metropolitan paper.  
Yes, about 4 a.m.

Toronto has one of the most unique  
small homes in the world. It has  
nine kitchens—Mr. and Mrs. and the  
seven little Kitchens.

Two hoboes met on a blind siding.  
One had been a salesman whose hours  
were from 10 a.m. to 4 p.m. The other  
didn't have any money either.

"Now is the time for all good men  
to come to the aid of the party," said  
the host, who discovered that he had  
mislead his permit.

Only the fool goats over the fail-  
ure of a business rival. The wise  
man studies the causes of his fail-  
ures and profits thereby.

Some men say the world is flat and  
some say it is round. We do not  
know whether it is flat or round, but  
we know it isn't what it should be.

Trouble is like the cube: it appears  
different when viewed from a differ-  
ent angle. We have the knack of get-  
ting the proper perspective on your  
printing troubles—try us.

A persistent two-week search by  
airmen in northern Saskatchewan for  
their comrade, Mike Finland, was re-  
warded on Monday, when his Indian  
guide was found making the way out  
for gasoline for Finland's stranded  
plane, reporting Finland safe.

In anticipation of hard times and  
necessary relief work this winter, the  
Ontario Liquor Control Board has  
promised to co-operate with relief or-  
ganizations by instructing vendors  
not to issue liquor to persons who are  
objects of public charity. This would  
be a commendable course for the Al-  
berta Board to follow.

1888 MODEL DELIVERED  
AS FORD CALLS FOR HIS CAR

MUNICH, Germany.—Henr Ford,  
American automobile manufacturer,  
after examining with great interest  
the first automobile built in Germany  
in 1885, which is displayed at the  
Deutsches Museum, has bought one al-  
most as old for his own museum. It  
is an 1888 model Benz, a product of  
Karl Benz, who had designed the  
three-wheeled, chain-driven vehicle  
which Mr. Ford had seen in the mu-  
seum.

"There was an amusing incident  
connected with the delivery of the re-  
lic Mr. Ford made a casual call for  
his car to pick him up at his hotel  
this morning, and as he emerged  
from the door he found the wheez-  
ing 1888 model waiting for him at  
the curb.

Directors of the Sun Life Assur-  
ance Company declared an extra  
dividend of \$25 a share, payable Oc-  
tober 1st to stock of record Septem-  
ber 15.

Hon. Herbert Greenfield, former  
premier of Alberta and the provincial  
agent-general at London, is to be  
chairman of the Alberta-Western Oils  
Limited, a British firm.

Moose Jaw civ's voters rejected an  
unemployment relief measure to re-  
place an old steel bridge with a con-  
crete structure at the eastern end of  
the city. The Saskatchewan govern-  
ment had undertaken, as a relief mea-  
sure, to pay half the cost of the new  
bridge.

Rev. Andrew Ahenakew, full blood-  
ed Cree Indian and a missionary in  
Saskatchewan for the Church of Eng-  
land, speaking at a dinner in Toronto,  
made a strong plea for a chance for  
the Canadian Indian to take his place  
with the white men of the Dominion  
in the realization of his destiny.

A local school boy's definition of  
book-keeping: Forgetting to return  
borrowed volumes.

Long legs are pronounced a sign of  
intelligence. At any rate a long  
step in that direction.

The millions of germs on money  
and in kisses never make a man re-  
fuse either.

The only difference between bear  
stories and fish stories is that the  
bears are sometimes larger than the  
fish we hear about.

Wives are the greatest historians  
in the world, observes a Blairmore  
husband, as is shown by the manner  
in which they can dig up the past.

A young Blairmore friend of ours  
says he calls his sweetie "Mayon-  
naise," for every time he calls, she's  
dressing.

Just Like That  
Mandy: "You all reminds me of one  
of dem flying machines."

Rastus: "How come, woman, how  
come? Cause I is such a high flyer."  
Mandy: "No, suh, celled man; it's  
just because you ain't no use on  
earth."

All Right --- But

Two men left a banquet together.  
They had dined exceptionally well.  
"When you get home," said one, "if  
you don't want to disturb your fam-  
ily, undress at the foot of the stairs,  
fold your clothes neatly and creep up  
to your rooms."

The next day they met at lunch,  
"How did you get on?" asked the ad-  
viser.

"Rotten," replied the other. "I took  
off all my clothes at the foot of the  
stairs as you told me, and folded them  
up neatly. I didn't make a sound,  
but when I reached the top of the  
stairs it was the wrong house."

## PLEASURE

## WORLD HAPPENINGS BRIEFLY TOLD

Canada has twelve factories for the manufacture of macaroni and the annual production has a value of about a million and a half dollars, according to the latest figures from Ottawa.

Premier James H. Scullin, of Australia, making his first appearance before the League of Nations Assembly, denounced armaments as a menace to peace and urged the League to call a general disarmament conference.

A cable received by the Child Welfare, Inc., New York, from its administrative committee in China, said 5,000 children are dying as a result of famine and that war and communism are adding difficulty to the situation.

The committee which will administer the War Veterans' Allowance Act, was appointed by the late Federal Government, and its personnel is now preparing for the operation and administration of the act.

The superannuation of E. R. Cameron, K.C., as registrar of the Supreme Court of Canada, was announced at the Prime Minister's office at Ottawa. He is succeeded by James F. Shele, K.C., a lawyer of Ottawa.

Portage la Prairie, Man., known for its No. 1 hard wheat, has added new laurels to its brow. On the farm of J. Prout, one mile from the town, peanuts and almonds have been produced this season. He grew two sacks of peanuts and a few peapods of almonds.

James C. Brady, former Conservative member of parliament for Skeena, B.C., has been appointed a census commissioner of the demography branch of the Dominion Bureau of Statistics. Mr. Brady will organize the census of institutions such as hospitals, asylums, penitentiaries, and house of refuge all over Canada.

**New Market in Egypt**  
Total Shipment Of Apples Being Made From Okanagan Valley

A new market for British Columbia apples in Egypt is being opened up by a trial shipment there, under arrangements completed by the provincial department of agriculture.

This shipment will consist of 2,000 cases from the Okanagan Valley at a price to net the growers a profit which would be small in a domestic market but satisfactory in an export market. The agricultural department believes that Egypt will offer a large market for British Columbia fruit in the future and is anxious to cultivate this business. A few apples from this country have found their way into Egypt before, but the market has never been built up in a big way.

"My wife used to play the piano a lot, but since the children came she doesn't have time."  
"Children are a comfort, aren't they?"

Mrs. M. Milnor, aged 90, is still busy making cane seats at Wycombe, England.

## Scenic Automobile Route

Endorse Lake Superior Route For Trans-Canada Highway Through Northern Ontario

At a meeting of representatives of the Port Arthur and Fort William city councils and chambers of commerce, held in Port Arthur, and addressed by John Lang and R. A. Gibson, delegates from Sault Ste. Marie, a resolution was adopted, approving of the Lake Superior route for the proposed trans-Canada highway through northern Ontario.

The meeting was unanimous and accepted the view that while the cost per mile of construction might be slightly higher, the aggregate cost, because of saving in distance, would be considerably less than for the proposed alternative route further to the north, and felt also that it would open up a scenic route second to none on the continent.

It was further believed that with a time saving of one day over any other possible route for such tourists as would make the circuit, it would be a much greater attraction for visitors from the south.

In order to get action on the matter, the Fort William Chamber of Commerce some time ago adopted resolution, approving a compromise route which would touch Chapleau and Oba, considerably to the north and adding 145 miles to the 475 miles between Port Arthur and the Soo.

Representatives present at the meeting said the Fort William Chamber of Commerce would almost certainly be willing to reconsider the matter and join Port Arthur and the Soo in urging the all-lake shore route.

## School For Film Fun

Mining Town In Northern Manitoba Town To Have Public School

Efforts of the mining town of Film Fun to have modern public school instruction this year have at last been successful, according to word received in The Pas. Equipment is now being installed in the class rooms, and it is expected that work will begin within ten days.

Financial plans are about complete. With grants from the province, the town, and with the aid of the Hudson Bay Mining and Smelting Co., grades up to eight will be taught this year.

It has been decided to engage Miss Doris M. Foster, of Winnipeg Beach, to teach the primary grades, and Miss Margaret Sutherland for grades three, four and five.

## Find Early Coins

Interesting Discovery In Wales Of Gold Coins Minted In 1340

Thirty golden nobles, in perfect condition and apparently fresh from the Mint where they were struck to celebrate the defeat of the French fleet by Edward III, at Sluis, in 1340, were discovered recently on the edge of an ancient road leading from Taliesin, Cardiganshire, to the Dovey Estuary, where a ferry in olden days carried travellers across to North Wales.

The coins depict an English warrior breasting the waves and surmounted by the English coat-of-arms and the King's head.

## Recipes For This Week

(By Betty Barclay)

### BREAKFAST MUFFINS

2 cups special cake flour, sifted.  
4 teaspoons baking powder.  
1/2 teaspoon salt.  
1 egg, well beaten.  
3/4 cup milk.  
4 tablespoons butter or other shortening, melted.

Sift flour once, measure, add baking powder and salt, and sift again. Combine egg and milk and add to flour, beating until smooth. Add shortening. Bake in greased muffin pans in hot oven (400 degrees Fahrenheit) 25 minutes. Makes 10 muffins.

### BAKED FISH

1 average helping filleted flounder, freshaddock or whiting.  
2 tablespoons butter.  
Salt and pepper.  
1 lemon.

Grease a plate and lay the fish on it with the skin side upwards. Put in the oven five minutes and the skin can be easily removed. Melt butter in a fat pan, lay fish on it and place in hot oven 400 degrees Fahrenheit, eight to ten minutes. Baste twice while baking. Remove season and squeeze lemon juice over. Serve hot.

## Tour To the Orient

Business Men To Sail On Chamber Of Commerce Tour To Japan and China

Several business men of Edmonton and Calgary have already signified their intention of joining the Canadian Chamber of Commerce tour to the Orient, which sails from Vancouver on the "Empress of Asia" on October 19th. The tour will include a visit to Japan and reception by the Japanese Government, and trips to Shanghai, Nanking, Hong Kong and Canton, and the members will be back before Christmas. The tour is not limited to members of Chambers of Commerce and Boards of Trade, but is open to the general public as well.

In many parts of Africa there is a tree which bears large seeds resembling huge sausages.

## SUNDAY SCHOOL LESSON

OCTOBER 5  
ZACHARIAS AND ELISABETH—Life in a Pious Jewish Home

Golden Text: "And they were both righteous before God, walking in all the commandments and ordinances of the Lord blameless."—Luke 1:6.  
Lesson: Luke 1:5-8.  
Devotional Reading: Psalm 122.

## Explanations and Comments

A Righteous Couple, verses 5, 6.—In the days of Herod, King of Judea (Herod the Great, who reigned from 37 to 4 B.C.), there lived a priest named Zacharias, of the course, or group of Abijah. "David divided the priests into twenty-four courses, each of which in rotation was responsible for the temple services for a week. Each course, therefore, officiated twice a year, at an interval of six months. After the captivity only four courses remained, but these were subdivided into twenty-four courses under the old manner. The course of Abijah is said to officiated in April and October." The wife of Zacharias, who was a descendant of Aaron, was called Elisabeth. Their home was in the hill country south of Jerusalem. Both were righteous before God. Both were pious Jews who observed the Mosaic law, kept all the commandments and ordinances. They were not faultless, but they were good men.

The Birth and Naming Of John, verses 9-13.—When Elisabeth's son was born, all her neighbors and relations rejoiced with her. "There is nothing else in the world so important as children, nothing else so interesting."—David Starr Jordan. Those present at the circumcision of the child when he was eight days old, wished to name him Zacharias after his father, but Elisabeth said, "Not so; but he shall be called John." See verse 13. "John" means "the grace of God." Zacharias having heard all that was said, is called by this name, they said in astonishment, and turning to Elisabeth, they asked him what the name should be, making use of signs, for he seems to be supposed to be deaf, as well as dumb. (Verses 18-20. "Five words cost Zacharias forty weeks' silence."—Thomas Fuller. "Various suggestions have been made to evade the conclusion that he was deaf; that men are very apt to treat the deaf as dumb. As if he were also deaf; that they communicated by signs instead of by speech to spare the feeling of Elisabeth, whose judgment was being appealed from; that a sign was all that was needed; Zacharias having heard all that was said."—Expositor's Greek Testament. Zacharias called for a writing tablet, a tablet covered with wax, and upon it he wrote with a stylus. "His name is John."

Then Zacharias burst forth into speech, blessing God. The people were much impressed by his recovery of speech and by the unexpected name given the babe, and they perceived that some great future was before the child. "What, in view of these things, shall this child be?" they asked. "For the hand of the Lord was with him," the Evangelist comments.

Pure Bred Sire Areas.—Twenty-eight rural municipalities in the Province of Saskatchewan have been established as pure-bred sire areas, which means that these areas have become entirely free of scrub sires.

Calculating machines, similar to those used for tabulating census returns, are being used in the British nautical almanac office to compute daily positions of the moon until the year 2000.

## HOW ONE WOMAN LOST 47 POUNDS OF FAT

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds. I was always bothered with pains in my back and lower part of abdomen and sides."

"Now I am glad to say I am a well woman, feel much stronger, years younger and my weight is 170 pounds. I do not feel any better but I look better, so all my friends say."

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that it is in it."—Mrs. S. A. Solomon.

"P.S.—You may think I am exaggerating by writing such a long letter but truly I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

## Canned Chicken

New Business Is Likely To Develop Into Large Proportions

In his annual report recently published the Veterinary Director General of the Dominion Department of Agriculture called attention to the increase in the number of poultry products processed under government inspection. The packing trade are canning more meats and poultry in Canada, and there appears to be room for considerable development in the field of canned chicken. Canned whole chickens made its appearance on the market last year and from the reception accorded it the new business is likely to develop into one of considerable proportions.

## Strength Of Canadian Woods

A comparison of strength values of wood of sugar maple and yellow birch show that sugar maple is considerably the stronger in the green condition, whereas after seasoning, they are of approximately the same strength. This is revealed through publication of results of the physical and mechanical properties of Canadian woods by the Forest Products Laboratories of Canada, Department of the Interior.

There is a Manchester sexton who believes in accuracy, as witness this entry: "Died—, male, aged three months; unmarried." Which leaves no possible doubt.

## Rheumatism?

Quick relief from rheumatic pains without harm:

TO RELIEVE THE WORST RHEUMATIC PAIN IS A VERY SIMPLE MATTER. ASPIRIN WILL DO IT EVERY TIME! IT'S SOMETHING THAT YOU CAN ALWAYS TAKE. GENUINE ASPIRIN TABLETS ARE HARMLESS. LOOK FOR THE BAYER CROSS ON EACH TABLET.

## Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

## WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE  
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and live stock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

## Local and General Items

The ideal husband: the other woman's.

Miss M. Charlene, of Blaimore, was the guest of Miss May Baitman on Sunday last—Ferne Free Press.

W. J. Stokes, of Calgary, was a visitor this week with Jas. F. Smith, of the Cosmopolitan hotel.

G. A. Vissac, general manager, of the West Canadian Collieries, Limited, is in Calgary attending an important conference of coal operators.

Robt. Levitt and Angus Morrison, of Calgary, District 18 U.M.W.A. officials, were in the Pass the early part of the week on business.

The offices recently vacated by Dr. Olivier in the McLaren Block, are being altered and Mrs. S. G. Bannan will move his law office into the new quarters shortly.

Dr. J. S. Hynes and bride, returning on Tuesday to Claresholm from a honeymoon spent motoring through the western States, spent a few hours with friends in town.

J. G. Todhunter, of Elko, is relieving Mr. W. Meier, local trouble shooter for the East Kootenay Power Co. for a couple of weeks. Mr. and Mrs. Meier are on a motor holiday.

Mr. W. Bond, of Lethbridge, is relieving H. H. Griesbach at the local customs office. Mr. Rowntree, of the Crystal Dairy staff, accompanied Mr. Bond to the Pass, returning to Lethbridge this morning.

W. J. Bartlett, editor, returned this morning from an extended holiday visiting relatives in eastern Canada and the New England States. While away, he visited his old home in Newfoundland and took in the Canadian Weekly Newspapers Association convention in Halifax.

J. W. Chapman and K. Watson, of the Department of Municipal Affairs, Edmonton, were in town on Tuesday conducting the auction in connection with the department's tax sale. Mr. Watson is succeeding Mr. Chapman as representative, who has been promoted to the headquarters staff.

Yesterday was the opening of the Hungarian partridge season. Open season continues from October first to November fifteenth inclusive, with a bag limit of fifteen a day or seventy-five for the season. The birds are said to have increased over last year, and a good season shoot is anticipated. There is no open season for chicken.

The Lethbridge Presbytery of the United Church held interesting sessions at Pincher Creek on Tuesday, when Rev. W. Irwin, of Taber, was named as chairman for the ensuing year. Delegates were high in their praise of the banquet served by the Pincher Creek Ladies' Aid at the close. Rev. J. W. Smith, B.D., of Blaimore, was in attendance.

The Elks opened their club-feature sessions in the Moose hall last night. The bridge and rummy hands even refused to be daunted when the lights went out, and continued by the aid of candle light. A delightful break in the hectic battles was made to partake of refreshments, and it was announced that Harry Griesbach would officiate as host for next Wednesday's session.

Early on Wednesday morning a prowler entered the premises of Mr. Mackenzie, at the rear of the old Alberta hotel, and rifled his pockets, securing around \$12.00. The Royal and Alberta Cafes were also entered and the usual change left in the tills overnight was removed. The police, however, apprehended a couple of transients endeavoring to make an exit via the blind baggage on the morning train and believe in one they have the culprit in the toils.

The Blaimore Ladies' Golf Club sent a team to Fernie on Saturday last.

Dan J. Lucy, of Calgary, is in town on his periodical audit of the books at the local branch of the Distributors Limited.

Mr. and Mrs. Alfonso Fabro returned home this week from Blaimore and will make their home here.—Kimberley Press.

Mrs. Gwyn Evans has returned to camp with her husband from Calgary. Mr. Evans has been attending the annual convention of miners—Saunders Creek Notes in Red Deer Advocate.

There will be a general meeting of the Canadian Legion of the B.E.S.L. at 2.30 p.m. Sunday next, October 5, in the club rooms. It is hoped that as many of the members who can do so will be present.

The Guinness family, of England, which made its fortune in ale and stout, may take up the task of attempting to win back the America's cup, in which Sir Thomas Lipton has failed. A challenge is likely to be issued for 1933.

Rev. Theo Powell, D.D., superintendent of missions in Alberta, will pay a visit to Blaimore over the week-end. He will occupy the United church pulpit on Sunday evening and will be in attendance at a session of the Official Board on Monday evening.

Walter Scott can now sympathize with anyone who gets hit by a golf ball. On Sunday, a ball driven by Sgt. Jones, ricocheted off his head and landed 100 yards away, bringing him to his knees. Walter, however, stoically came back to make the next hole one under par.

E. W. Beatty, president of the Canadian Pacific railway, and party of directors and invited guests, passed through Blaimore from the west by special train on Sunday afternoon. During a stop at Lethbridge, President Beatty informed the press that trains would be running over the new line around Kootenay Lake before the end of the year.

TEA AND SALE of home cooking, at Mrs. Packer's, October 9th, 3 to 6 p.m., St. Luke's Junior Guild.

ANNUAL BAZAAR. Hillcrest United Church Ladies' Aid, November 8th.

HALLOWEEN DANCE. Auspices of L.O.O.F. Lodge, Moose Hall, October 31st.

THE C.W.L. ANNUAL BAZAAR, Opera House, Nov. 15th. Dancing 9 to 12. Watch for this annual event.

FOR SALE—Sauerkraut Cabbage, at wholesale prices. Apply J. T. Stainby, two miles north of Cowley.

BELLEVUE C.W.L. BAZAAR will be held on November the 8th. Keep the date open.

THE PYTHIAN SISTERS will hold their Annual Tea and Sale of Home Cooking in the Lodge Hall on November 22nd.

FOR QUICK SALE—\$400 Phonograph, with records \$60, New Walnut Dresser, large mirror \$15. Kroehrer Divanette and Mattress, nearly new, \$25. Fumed Oak Buffet, \$20. Apply Enterprise, Blaimore.

BAY STALLION, about 1100 lbs, two white hind feet, white strip on face, no visible brand; came with herd from near Hillcrest. Owner can have same by applying to A. Wakaluk, Burnis, and paying for feed.

DON'T FORGET that Mr. N. Day, Canada's fastest and expert permanent waver will be in Natal about the 25th of October, giving \$10.00 permanents, in the Maxie Beauty Shoppe. Make your appointments early with Miss Eva Beard, Natal, B.C.
